

NICHOLAS RUFFIN

Engineering Leader | Data Platforms

Ellisville, MO (843) 793-9770 nruffinsecure@gmail.com linkedin.com/in/nicholas-ruffin

PROFESSIONAL SUMMARY

Engineering leader with 12+ years of technology experience, including director-level management of 16+ engineers across the US and India. Built and scaled an engineering department through 4 acquisitions, led technology due diligence alongside the CIO, and delivered systems that drove measurable business outcomes. Currently architecting a data monetization platform generating \$7M+ annual revenue processing 4.8B de-identified records. Combines deep technical expertise in Snowflake, AWS, and Python with a track record of building high-performing teams, establishing technical standards, and partnering with executive leadership on strategic decisions.

TECHNICAL SKILLS

Leadership	Team building (16+ across US/India), vendor evaluation, TCO analysis, technical strategy, offshore integration, mentoring
Data Platforms	Snowflake (Procs, Streams, Tasks), AWS (MWAA, S3, Lambda, IAM), Kafka, AWS Glue
Engineering	Python, SQL, ETL/ELT Pipeline Design, Data Warehousing, HIPAA Compliance, Datavant Tokenization
DevOps	Apache Airflow, Terraform, GitHub Actions (CI/CD), Docker, Git

EXPERIENCE

Senior Clinical Data Engineer | RedSail Technologies

Feb 2025 - Present

- Architected data monetization platform generating **\$7M+ ARR** by designing secure PII tokenization workflows (Snowflake + Datavant), enabling pharmaceutical clients to access privacy-compliant clinical datasets.
- Engineered de-identification pipelines processing **4.8 billion records** daily (3M+ transactions/hour), maintaining strict HIPAA compliance.
- Built Python/Airflow orchestration framework deployed via GitHub Actions, automating **50+ daily workflows** for S3 extraction and ETL processing.
- Optimized Snowflake architecture reducing query latency by **40%** and eliminating critical manual bottlenecks.
- Implemented automated monitoring achieving **99.5% pipeline uptime** SLA.

Director of Full Stack Development | Nimble Solutions

Aug 2021 - Jan 2025

Promoted from Lead Software Engineer to Director by the CIO. Built and managed an engineering department of 16+ people across three functional teams: 5 US software engineers, 6 SQL/data developers, 5 offshore RPA

developers in Hyderabad, and a project manager.

- Led technology due diligence for **4 acquisitions** — a coding company, 2 transcription businesses (Hyderabad and California), and an anesthesia company. Traveled to Hyderabad to integrate the acquired development team into US operations.
- Designed and led the build of **QUARC**, a queue-based AR claims reimbursement system ordered by revenue with historical AR aging data, increasing throughput to **30+ claims/day per rep**.
- Partnered with CIO, VP of Infrastructure, and CISO on **technical strategy, vendor evaluations, and TCO analysis**. Traveled with C-suite for due diligence and integration planning.
- Engineered integration of **50+ data sources** into a unified enterprise workflow, designing API orchestration patterns for high reliability.
- Established technical standards, implemented CI/CD pipelines reducing deployment time by **60%**, and achieved **90%+ test code coverage**.
- Mentored engineers across all three teams, building a culture of code quality, test-driven development, and cross-functional collaboration.

Senior Full Stack Developer | Core & Main

Jun 2017 - Aug 2021

- Developed enterprise data applications using C#/.NET and SQL, supporting **200+ concurrent** corporate users.

EDUCATION

Bachelor of Science, Information Technology

University of Phoenix
