

NICHOLAS RUFFIN

Data Client Solutions Leader | Pharmacy B2B Data Delivery

Ellisville, MO | (843) 793-9770 | nruffinsecure@gmail.com | [linkedin.com/in/nicholas-ruffin](https://www.linkedin.com/in/nicholas-ruffin)

PROFESSIONAL SUMMARY

Data client solutions leader with 12+ years of experience in pharmacy data delivery, B2B data partnerships, and healthcare data lifecycle management. Currently managing end-to-end delivery of de-identified pharmacy claims data to 5+ pharmaceutical buyers with strict SLA ownership, processing 4.8B records across 50+ automated delivery workflows. Deep expertise in pharmacy claims, data quality, client relationship management, and the full data lifecycle from ingestion through secure delivery. Proven director-level leadership of 16+ engineers with a track record of building scalable delivery operations, maintaining client satisfaction, and driving revenue through data products.

TECHNICAL SKILLS

Data Delivery	B2B Data Partnerships, SLA Management, Client Onboarding, Schema Specifications, Data Quality Assurance, Delivery Lifecycle
Data Platforms	Snowflake (Procs, Streams, Tasks, Multi-instance), AWS (MWAA, S3, Lambda, Fargate, IAM), Kafka
Engineering	Python, SQL, ETL/ELT Pipeline Design, Data Warehousing, HIPAA Compliance, Datavant Tokenization, Pharmacy Claims
Leadership	Team building (16+ across US/India), client management, cross-functional partnership, vendor evaluation, technical strategy
DevOps	Apache Airflow, Terraform, GitHub Actions (CI/CD), Docker, Git

EXPERIENCE

Manager, Data Product Engineering | RedSail Technologies Feb 2025 – Present

Promoted from Senior Clinical Data Engineer. Leading the pharmacy data monetization engineering team at a pharmacy technology company.

- Manage client delivery relationships across **5+ pharmaceutical data buyers** (Komodo, PurpleLab, Norstella, Forian, Clarivate), owning delivery SLAs, schema specifications, data quality standards, and ongoing technical partnership.
- Own end-to-end pharmacy data platform generating **\$7M+ ARR**, architecting secure de-identification and tokenization pipelines processing **4.8 billion pharmacy claims records** for B2B delivery to pharmaceutical clients.
- Architected automated orchestration framework spanning **50+ daily delivery workflows**, ensuring on-time data delivery with monitoring, alerting, and SLA compliance tracking.
- Lead cross-functional collaboration with product management, infrastructure engineering, and external vendor partners to drive delivery roadmap, client onboarding, and data lifecycle management.
- Oversee regulatory compliance including HIPAA audit readiness, proof-of-delivery documentation, and Expert Determination coordination — ensuring all pharmacy data deliveries meet regulatory requirements.
- Building and onboarding data engineering team, establishing delivery standards, code review processes, and deployment workflows via Terraform and GitHub Actions.

Director of Full Stack Development | Nimble Solutions

Aug 2021 – Jan 2025

Promoted from Lead Software Engineer to Director by the CIO. Built and managed an engineering department of 16+ people across three functional teams: 5 US software engineers, 6 SQL/data developers, 5 offshore developers in Hyderabad, and a project manager.

- Engineered integration of **50+ data sources** into a unified enterprise workflow, designing API orchestration patterns and data delivery pipelines for high reliability.
- Designed and led the build of **QUARC**, a queue-based healthcare claims reimbursement system ordered by revenue with historical AR aging data, increasing throughput to **30+ claims/day per rep**.
- Partnered with CIO, VP of Infrastructure, and CISO on **technical strategy, vendor evaluations, and TCO analysis**. Managed vendor relationships and partnership evaluations.
- Led technology due diligence for **4 acquisitions** — evaluating data systems, integration complexity, and client delivery capabilities. Traveled internationally to integrate acquired teams.
- Established technical standards, implemented CI/CD pipelines reducing deployment time by **60%**, and achieved **90%+ test code coverage**.
- Mentored engineers across all three teams, building a culture of delivery excellence, data quality, and client-focused development.

Senior Full Stack Developer | Core & Main

Jun 2017 – Aug 2021

- Developed enterprise data applications using C#/.NET and SQL, supporting **200+ concurrent** corporate users across operations.

EDUCATION**Bachelor of Science, Information Technology**

University of Phoenix
