

NICHOLAS RUFFIN

Engineering & Data Leader | People-First Team Builder

Ellisville, MO | (843) 793-9770 | nruffinsecure@gmail.com | linkedin.com/in/nicholas-ruffin

PROFESSIONAL SUMMARY

Player-coach engineering leader with 12+ years of experience building high-performing teams and data platforms in healthcare. Managed 16+ engineers across US and India with a focus on mentorship, team culture, and cross-functional partnership. Built an engineering department from the ground up through 4 acquisitions while staying hands-on with architecture and technical decisions. Currently leading a data platform team responsible for a \$7M+ ARR healthcare product processing 4.8B records. Passionate about mission-driven healthcare work, developing people, and building collaborative engineering cultures that deliver measurable outcomes.

TECHNICAL SKILLS

Leadership	Team building (16+ across US/India), managing managers, cross-functional partnership, hiring, mentoring, technical strategy, vendor evaluation
Data Platforms	Snowflake (Procs, Streams, Tasks, Multi-instance), AWS (MWAA, S3, Lambda, Fargate, IAM), Kafka
Engineering	Python, SQL, ETL/ELT Pipeline Design, Data Warehousing, HIPAA Compliance, Datavant Tokenization
DevOps	Apache Airflow, Terraform, GitHub Actions (CI/CD), Docker, Git

EXPERIENCE

Manager, Data Product Engineering | RedSail Technologies

Feb 2025 – Present

Promoted from Senior Clinical Data Engineer. Leading the data monetization engineering team.

- Lead cross-functional collaboration with product management, infrastructure engineering, and external vendor partners to drive platform roadmap, delivery timelines, and team alignment.
- Building and onboarding data engineering team, establishing technical standards, code review processes, mentorship practices, and deployment workflows.
- Own end-to-end data platform generating **\$7M+ ARR**, architecting secure pipelines processing **4.8 billion healthcare records** for pharmaceutical clients while staying hands-on with architecture.
- Manage client delivery relationships across **5+ data buyers**, owning delivery SLAs, schema specifications, and ongoing partnership — bridging engineering and business stakeholders.
- Architected next-generation V2 tokenization pipeline (AWS Fargate + Snowflake) and automated orchestration framework spanning **50+ daily workflows**.
- Oversee regulatory compliance including HIPAA audit readiness, proof-of-delivery documentation, and coordination with third-party evaluators.

Director of Full Stack Development | Nimble Solutions

Aug 2021 – Jan 2025

Promoted from Lead Software Engineer to Director by the CIO. Built and managed an engineering department of 16+ people across three functional teams: 5 US software engineers, 6 SQL/data developers, 5 offshore developers in Hyderabad, and a project manager.

- Mentored engineers across all three teams, building a culture of code quality, test-driven development, and cross-functional collaboration. Managed both individual contributors and team leads.
- Led technology due diligence for **4 acquisitions** — integrating acquired teams into existing org structure. Traveled to Hyderabad to onboard and align the offshore development team with US operations.
- Partnered with CIO, VP of Infrastructure, and CISO on **technical strategy, vendor evaluations, and TCO analysis**. Traveled with C-suite for due diligence and integration planning.
- Designed and led the build of **QUARC**, a queue-based AR claims reimbursement system, increasing throughput to **30+ claims/day per rep** — demonstrating player-coach ability to drive hands-on delivery.
- Engineered integration of **50+ data sources** into a unified enterprise workflow, designing orchestration patterns for high reliability.
- Established technical standards, implemented CI/CD pipelines reducing deployment time by **60%**, and achieved **90%+ test code coverage**.

Senior Full Stack Developer | Core & Main

Jun 2017 – Aug 2021

- Developed enterprise data applications using C#/.NET and SQL, supporting **200+ concurrent** corporate users across operations.

EDUCATION

Bachelor of Science, Information Technology

University of Phoenix
